Hamdi Chardiwal Construction Company

- One of the largest TRUST WORTHY Afghan Owned Company
- Specialize in Sectors of Construction established in 2003

A US \$5.00 million corporation, the HCCC is in the league of Fortune anchored by an extraordinary force of 130 Technical & Qualified employees, belonging to 06 different nationalities all over the world

→ *Success means many things at HCCC*

We believe in the competitive spirit, high performance, and positive interaction in all circumstances. A strong commitment to safety, responsible action, ethical and accountable leadership is what we stand for. And bottom line, we believe in treating everyone with dignity and respect.

Accountability

Trust is what we build on.

You can count on us. In this business, risks are inherent. Each is an opportunity to prove our worth to you. We hold ourselves accountable, on every level from safety, to the environment, to final turnover and full delivery.

Clients, employees and partners — we're all one team. As a key team member, HCCC consistently excels.

By planning projects meticulously

Placing our best people carefully

Offering innovations continually

Taking decisive action, when necessary, It's a proactive approach with the promise of superlative delivery. The results stand out

Innovation

We go further discovering possibilities, way beyond the obvious.

It's not enough to get the job done. In Construction, Logistics, schedules,

Costs and time can easily escalate.

We take that pressure in stride, so you don't have to.

Using entrepreneurial approaches to find new ways to operate

Adding value to your projects

Saving time, money, energy and even — headaches

Beyond forecasting, we "future-proof" our projects and approach by staying ahead of the industry. Sourcing leading-edge materials, providing sustainability solutions, delivery processes and technology, tailored for you. Our unique economy of scale means you'll have access to HCCC wealth of ideas, expertise and solutions on every project, regardless of scope. It's a template for success by innovation — one project at a time.

Integrity

The global market, that's our world.

We're going places. Because we value your business and we're prepared to tackle any challenge. Expand capabilities. Tap into new markets. Travel with you to new cities. Let's grow. It's a continual drive for improvement. And why 90% of our client base is driven by loyalty and repeat opportunities. Our diversity fits perfectly. Our resourcefulness is built on our mobility.

Meeting the challenges and vision of every project, small to large with integrity

CEO Message: -

I will try my best to provide an excellent service to my customers it means the better we do Afghanistan will develop faster.

Quality

At the heart of it all — building excellence and satisfaction is our reward.

It may look easy. That's our job. But the fact is, delivering this level of craftsmanship and quality is complicated. We never lose sight of the ultimate goal, completion on time and on budget — or even better. It takes total commitment to ensure a project's success, more so your peace of mind. We offer tested reliance and proven expertise. Our track record is stellar. But in the end, success comes down to the strength of our relationship —client and contractor. It's hard to quantify yet absolutely critical. Your confidence is our most precious corporate asset. We're prepared to earn it.

The HCCC nurtures a work culture where success is built on learning and innovating.

We aim to be a dominant player in every sector where we operate. Global in vision, rooted in values, we are driven by a performance ethic pegged on value creation for our multiple stakeholders.

HCCC

Proud to serve his best

Our Special Thanks goes to those men & woman comes from abroad and
put their all efforts round the clock

For

Development, Re-Constructions and Peace in Afghanistan

About Us:

We go beyond business, into the community.

We at the HCCC believe in an ageless philosophy: Help Ever Hurt Never - and are committed to uplift those less privileged, so that they can grow into economically independent and self - reliant individuals.

The HCCC (Hamid Chardihiwal Group) main goal is to take maximum part in Rehabilitation, Construction and to produce good quality Items in reasonable prices to get the satisfaction of its customers and take part in development of its war torn country as well.

Our longevity and our future will always be tied into operating effectively and efficiently, and providing a superior service to our clients. We believe in setting the bar high with lofty but reachable goals.

The roots of our company were firmly planted by our founder, Mr. Hamid Shah (President) a believer in being fiscally responsible, customer service excellence and in supporting every employee to be able to achieve those results.

Since it's establishing the HCCC has provided jobs for many young workers and skillful people, who had either returned from refugee camps or came under DDR (disarmament demobilization repatriation) programs. If we look deeply, it is a way to take part in reconstruction and stabilizing of peace in the country.

Like many International Company the (Hamid Chardihiwal Construction Co) proudly can say that it is the only Afghan corporation which has made an International standard administration in the country. Please let us serve you better by our standard and best quality products.

(Hamid Chardihiwal Construction Co) doesn't want to be given privilege but to be given the chance to show the capacity and efficiency of its service which is able to compete with famous Construction & logistic companies in the country and in the region as well.

What We Do

Since the establishment in 2003 of HCCC it has established its headquarters in Kabul and regional offices in all over the Afghanistan.

HCCC provides various services in three main areas:

- Civil Division
- Electrical Division
- Mechanical Division

Civil Division

HCCC (HCC) is the oldest division established in the group and throughout the 9 years of its existence carried out with success major civil construction projects for private and government sectors.

Project categories include hotels, hospitals, residential & commercial complexes, educational institutions, factories, aircrafts hangers, showrooms, colleges and universities, airports buildings and runways, roads, main city sewerage lines and pump stations, overhead water tanks, etc.

HCCC is categorized as Grade -1 in construction works.

This coupled with ample resources; financial as well as managerial staffs, experienced engineers, equipment's and the outstanding track record in executing a large number of high-quality projects put (HCC) at the top of the scale for the quality and the professional service offered for the end user and the business in general.

HCCC strives to remain as committed and as expected by the owners, the name for the quality.

HCC Electrical division has been playing a vital role as a leading contractor operating in the region. Our reputation has been built-up over 08 years with a careful study, attention to detail, and quality of work and client satisfaction. The Electrical Division has highly competent engineers for handling system design, supervision and execution of all the electrical works required for the Company projects as well as independent electrical contracting.

The Electrical Division has executed many major projects and has been specializing for this length of time in a very sensitive and vast areas of works and/or security system networks for residential, commercial, industrial, power houses, recreational cities setups, external landscape street and high mast lighting, communication, sophisticated electronics and security system network for hotels, banks, conference buildings, airports, stock exchanges, hospitals and universities. The Electrical Division has a team for management of operation and maintenance of highly sophisticated installations including plants, conference, security systems, electrical and electronic systems etc. Our firm is a group of highly talented individuals whose combined skills, capabilities and broader level of experience in the field ensure an uncompromising standard of work.

1. SECURITY SYSTEM:

The work includes the supply and installation of dual computer system, alarm actuation, closed circuit television, intercommunication and patrol tour verification, card access-controlled doors, staff location information system, large screen visual display, event commands for security, fire actions and metal detection, baggage screening, optical disc players and recording system.

ELECTRICAL DISTRIBUTION SYSTEMS:

The work includes the supply and installation of power distribution and lighting equipment's, stand-by diesel generators, U.P.S. systems and the conventional electrical package in a basic project such as high tension and low tension switchgear, unit distribution stations, motor control centers, distribution and consumer boards, ventilated cable trays and bus duct, under floor trucking, high and low tension cables, indoor and outdoor lighting, stage lighting, special crystal glass and brass chandeliers, special effect lighting, power and lighting control systems.

NAVIGATIONAL, AIR TRAFFIC CONTROL & VISUAL AIDS:

Air Traffic Control System:

The work includes air traffic control system in the control tower for communication between the ground and the aircrafts. VHF receivers and transmitters, portable VHF transceivers, antennae, light gun, CCTV system.

- ***Meteorological Services:***

The work includes runway visual range system, cloud height indicator, pressure sensor system, and wind velocity and direction indicator system.

- ***Visual Aids for Navigation System:***

The work includes approach lights, PAPI lights, runway center line lights, touchdown zone lights, taxiway lights, guidance sign boards, constant current regulators, and wind cones, seating pots, computerized multiplex control transmission system to transmit the commands from the remote-control desks and the status of lights to the control desks at the control tower.

- ***Navigational Aids:***

The work includes the supply and installation of instrument landing systems CAT II (ILS CAT II), VHF localizer, UHF glide slope, UHF DME and remote indication and control desks for runways.

MAINTENANCE & OPERATION:

Apart from the maintenance of all the projects we execute, we are doing the management, operation & maintenance of other projects.

POWER STATION:

The work includes the design, supply and installation of high tension and low-tension diesel generator units, high- and low-tension switchgear, high tension transformers, control rooms, overhead cranes, fuel storage tanks, mechanical works, ventilation system and UPS system.

COMMUNICATION SYSTEM:

The work includes supply & installation of telephone exchanges, intercom and guard tower system, sound, music & public address system, paging system, CCTV & MATV system, market information system, fire alarm & burglar alarm systems, clock systems, room status systems, wake-up alarm system, nurse call system, court recording system and simultaneous interpretation system.

CONTROL & MONITORING:

The work includes the design, supply and installation of computerized central control and monitoring system, which comprises data transmission system, data gathering panel, sensors and flow meters, local control system for sewage disposal, fire protection, ventilation, air conditioning systems, irrigation systems and display fountains. Supervisory control and back mosaic mimic control panel, control desks, selector switches and control cables.

Mechanical Division:

(HCC) have a capability to participate in numerous major projects primarily in executing mechanical installations for:

- Cooling, air-conditioning, ventilation and heating.
- Firefighting including sprinklers, hose reel, halos system and foam systems complete with associated control systems.
- Sanitary works and plumbing.
- Swimming pools including water treatment and filtration systems.
- Fountains with the associated lighting and control system.
- In addition, the company has undertaken maintenance works for all services.

As a result of its experience the company has developed substantial in-house engineering expertise, well versed in relevant state of the art technology supplemented by sophisticated workshop facilities to cater for the specialized requirements of all building services

HCCC understands the design and survey process better than a typical contractor. Our professional team of project managers and estimators works closely with design professionals to develop creative construction plans for buildings as functional and efficient.

Our company offers a professional construction team with great experience. Our partners are committed to and actively involved with every project.

We offer expertise in all aspects of construction and development:

- Construction Management Services
- General Contracting Services
- Design/Build Services
- Construction Consulting Services

- Preconstruction and Feasibility Studies
- Housing Scheme
- Construction of Clinics, Schools and Governmental Facilities
- Roads and Bridges/Culverts construction including asphaltting, DBST and Graveling
- Construction and rehabilitation of irrigation system including protection walls, culverts, check dams, division walls, siphons, water reservoir and aqueducts.
- Water supply including supply schemes and drilling wells.

As a result of our past experience, we emphasize accurate estimating, value engineering, scheduling and cost containment which also provides an edge for recommending creative financing solutions to owners.

WE MUST ALL BE DEDICATED TO THIS MISSION.

OUR REPUTATION DEPENDS ON ALL OF US WORKING AS A TEAM TO SATISFY AND RETAIN THE
WHICH IS OUR CLIENT”

**Hamid Chardihiwal Construction Co.
Health & Safety Policy**

WE AT HCCC SERVICES ARE COMMITTED TO:

CARRY OUT ITS ACTIVITIES IN A MANNER THAT ASSURES SAFETY
AVOID DAMAGES TO COMPANY ASSETS

IMPLEMENT & PROMOTE SAFETY CONSCIOUSNESS AMONGST EMPLOYEES
PARTNERS TO PREVENT AND MINIMIZE ACCIDENTS, INJURIES AND
ILLNESSES

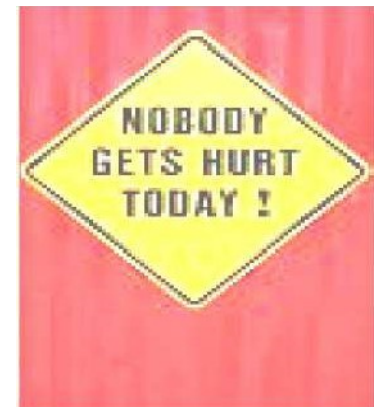

CONTINUALLY IMPROVE OUR SAFETY PRACTICES

ENSURING THAT HCCC CONTROLS ARE IN PLACES, WHICH FULLY COMPLY WITH ALL APPLICABLE
AND OTHER REQUIREMENTS

ELIMINATE OR REDUCE RISKS FROM OUR ACTIVITIES TO ACCEPTABLE LEVELS

ADHERENCE TO OUR HEALTH, SAFETY PROGRAM IS TO ACHIEVE

ZERO ACCIDENT, ZERO INJURY & ZERO PROPERTY DAMAGE

Hamid Chardihiwal Construction Co. Customer Satisfaction Policy

“Our primary aim is to provide customers with the very best level of service that can be expected and therefore customer satisfaction is core to our business.”

HCCC Services recognize the need for a pro-active style of management and continual assessment of service delivery and performance standards; feedback is vital for us to ensure that we are aware of what our customers think of our service, enabling us to identify those areas we need to focus on to improve our service.

We strongly believe in “Going the extra mile” and actively encourage long term business relationships with our customers, through partnering initiatives and continuous development of customer care.

We believe that successful working partnerships are built on the basis of:

- Continuous improvement
- Trust, mutual respect and understanding of any issues and difficulties
- Open communication
- Operate to the spirit of any agreement, not only the specific terms
- Operate a culture of team work and professionalism

In accordance with our management procedures, documented in our policies and procedures, we strive to ensure a practical process for ensuring that customer care is an adopted approach.

We ensure that there is a structured measure of customer care, that positive & negative customer feedback is documented and reviewed and ensure that all employees deal with all customers in the following manner at all times

- Be courteous, polite & considerate
- Be patient & flexible with customer demands
- Listen to customer's requests and take ownership of issues
- Keep the customer informed and exceed their expectations

Monitoring is by audited ISO9001 procedures and all employees will use their skills to ensure that our customer's reasonable requirements and interests are considered a priority and in the event of customer dissatisfaction the appropriate procedures are followed to ensure continuous improvement.

Hamid Chardihiwal Construction Co. Environmental Protection Policy

The Company is committed to the supply of products and services that meet the laws, regulations and clients' requirements on environmental matters.

In order to ensure that the effects of products and activities on the environment are controlled and minimised, and environmental management system will be maintained and documented in the organization manual and Environmental Procedures.

The main objectives in matters of environmental protection are to control and minimised the production of waste as well as their effect on the environment such as;

- Air Emissions
- Water Discharges
- Soil Contamination
- To Recycle when practicable materials, reduce their use and control their storage
- Minimum risk of accidental waste release and if so, provide for emergency
- It is the policy of the company to reduce, to an absolute minimum, the production of waste
- The Company is committed to provide suitable and adequate training and instruction to all employees and sub-contractors on environmental and disposal issues

- Establish and maintain liaison with third parties and authorities concerned by the environmental protection of the site, and surrounding areas
- Establishment of procedures for purchase and re-use of materials in such a way as to reduce the impact of construction activities on the environment.
- All Personnel having the responsibility to implement the Environmental management System will ensure that the factors, which may compromise the achievement of the aforesaid policy and objectives, are brought to the attention of the senior management
- At site management will ensure that relevant employees are fully conversant with the Environmental Management System
- The Construction Director will nominate, in writing, a representative who is responsible to ensure that the EMS is implemented, maintained, evaluated and improved when necessary.
